

EXPERIMENT 5

5. Create a simple cloud software application for Library book reservation system for SIMATS library using any Cloud Service Provider to demonstrate SaaS.

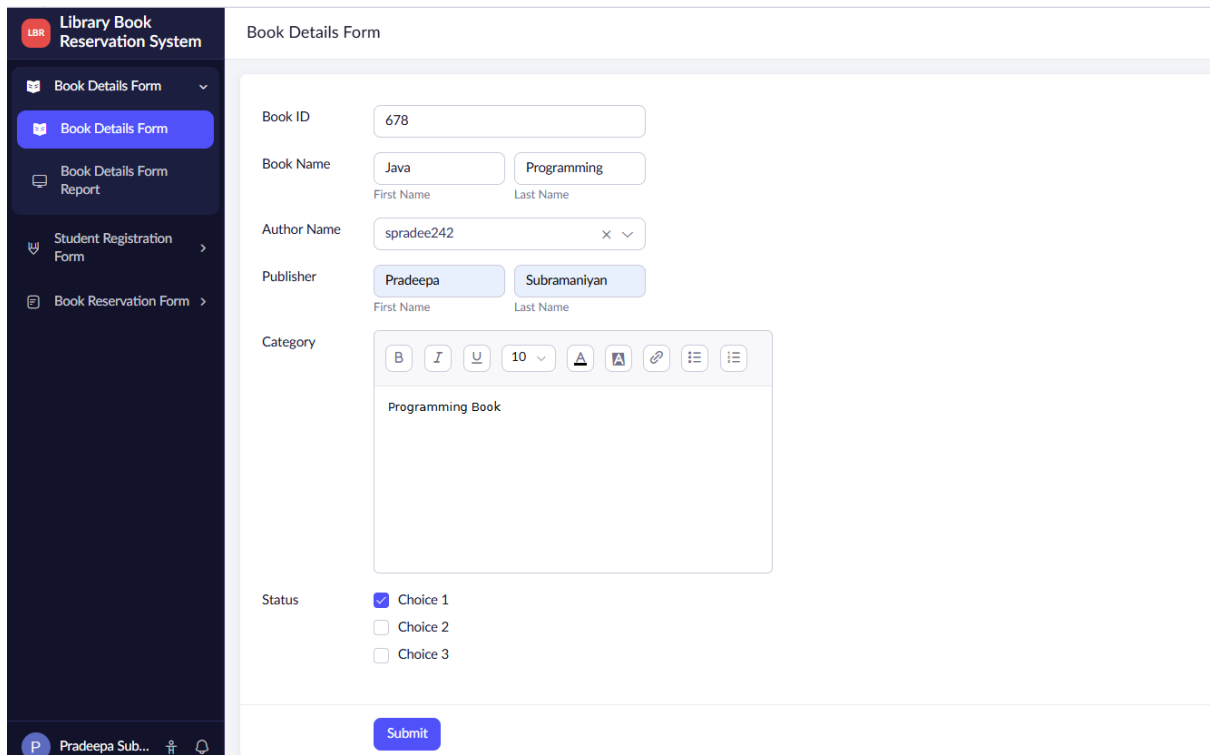

AIM:

To create a simple **Library Book Reservation System for SIMATS Library** using **Zoho Creator** and demonstrate the **Software as a Service (SaaS)** model through a cloud-based application.

PROCEDURE:

- Sign in to **Zoho Creator**.
- Create a new application named **SIMATS Library Book Reservation System**.
- Create the **Book Details** form and enter book information.
- Create the **Student Registration** form to store student details.
- Create the **Book Reservation** form and link it with the Book Details and Student Registration forms using Lookup fields.
- Save the forms, enter sample records, and test the reservation process.
- Publish the application and access it through a web browser to demonstrate SaaS.

SNAP CHAT:

The screenshot shows the 'Book Details Form' in the 'Library Book Reservation System'. The form includes fields for Book ID (678), Book Name (Java Programming), Author Name (spradee242), Publisher (Pradeepa Subramaniyan), and Category (Programming Book). The Status is set to Choice 1. A Submit button is at the bottom right.

Library Book Reservation System

Book Details Form

Book ID: 678

Book Name: Java Programming
First Name: Java Last Name: Programming

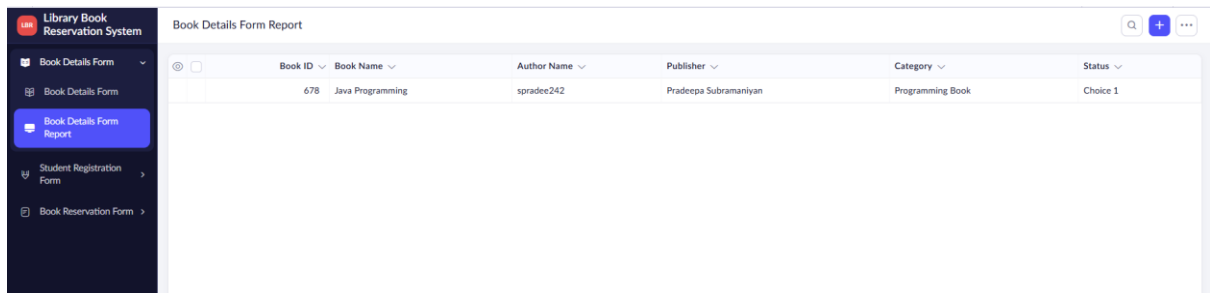

Author Name: spradee242
First Name: spradee242 Last Name: 242

Publisher: Pradeepa Subramaniyan
First Name: Pradeepa Last Name: Subramaniyan

Category: Programming Book

Status: ☒ Choice 1 ☐ Choice 2 ☐ Choice 3

Submit

The screenshot shows the 'Book Details Form Report' in the 'Library Book Reservation System'. The report displays a table with columns for Book ID, Book Name, Author Name, Publisher, Category, and Status. The data row shows Book ID 678, Book Name Java Programming, Author Name spradee242, Publisher Pradeepa Subramaniyan, Category Programming Book, and Status Choice 1.

Library Book Reservation System

Book Details Form Report

Book ID	Book Name	Author Name	Publisher	Category	Status
678	Java Programming	spradee242	Pradeepa Subramaniyan	Programming Book	Choice 1

RESULT:

A cloud-based **SIMATS Library Book Reservation System** was successfully created using **Zoho Creator**. The application was hosted on the cloud and could be accessed

through a web browser, demonstrating the **Software as a Service (SaaS)** model.
