

## EXPERIMENT 4

4. Create a simple cloud software application for Car Booking Reservation System using any Cloud Service Provider to demonstrate SaaS.

### AIM:

To create a simple **Car Booking Reservation System** using **Zoho Creator** and demonstrate the **Software as a Service (SaaS)** model through a cloud-based application.

### PROCEDURE:

- Sign in to **Zoho Creator**.
- Create a new application named **Car Booking Reservation System**.
- Create the **Car Details** form and add car information.
- Create the **Customer Registration** form to store customer details.
- Create the **Car Booking** form and link it with the Car Details and Customer Registration forms using Lookup fields.
- Save the forms, enter sample data, and test the booking process.
- Publish the application and access it through a web browser to demonstrate SaaS.

## SNAP CHAT:

The screenshot shows the 'Customer Registration Form' interface. On the left is a dark sidebar with the 'Car Booking Reservation System' logo and a menu including 'Car Details Form', 'Customer Registration Form' (selected), 'Customer Registration Form Report', and 'Car Booking Form'. The main area contains the registration form with the following fields: Customer ID (456), Customer Name (Pradeepa Subramaniyan), Email (spradee242@gmail.com), Phone (+91 9361226108), and Address (1/7 Middle Street, Sengipatti, Thanjavur, Tamil Nadu, 650789, India). A 'Submit' button is at the bottom right.

|               |                                                                     |
|---------------|---------------------------------------------------------------------|
| Customer ID   | 456                                                                 |
| Customer Name | Pradeepa Subramaniyan                                               |
| Email         | spradee242@gmail.com                                                |
| Phone         | +91 9361226108                                                      |
| Address       | 1/7 Middle Street, Sengipatti, Thanjavur, Tamil Nadu, 650789, India |

The screenshot shows the 'Customer Registration Form Report' interface. It features a table with the following data:

| Customer ID | Customer Name         | Email                | Phone         | Address                                                             |
|-------------|-----------------------|----------------------|---------------|---------------------------------------------------------------------|
| 456         | Pradeepa Subramaniyan | spradee242@gmail.com | +919361226108 | 1/7 Middle Street, Sengipatti, Thanjavur, Tamil Nadu, 650789, India |

## RESULT:

A cloud-based **Car Booking Reservation System** was successfully created using **Zoho Creator**. The application was hosted on the cloud and accessed through a web browser, demonstrating the **Software as a Service (SaaS)** model.
